IMPROVED PATENT
Lever Railway Press.

THIS Press excels all others now in use for Pressing Hay, Cotton, Hemp Wool Hops, Rags &c &c and will be warranted to perform well and do double the work that any other press can with the same number of hands, with less than half the draught a small boy can attend the horse and the running back of the follower with perfect ease The time required in running up the follower is fifteen seconds At ordinary all day work seven or eight bales can be pressed per hour—Bales of hay can be pressed weighing over 400 lbs measuring two feet square and four feet long—Bales of Cotton can be made compact enough without compressing

The construction of this press is such that it does not require a building expressly for it as it may be placed in any barn or shed and the horse may move in any direction or at any distance from it, and when the bale is ready for delivery it is discharged instantly and the follower gradually recedes as the Hay is placed in the box

The construction is so simple that any man can make a Press or keep it in order

The travel for a horse in running up a bale is fifty feet, while in a screw press the travel is one mile and a half in running the screw up and down

Report of the Premium Committee of the Agricultural Society of New York.

"The Lever Railway, Hay and Cotton Press offered by Wm S Jack of Catskill New York is a machine combining great power convenience of operation and constructed on true philosophical principles and is a great desideratum to the river counties and all places not contiguous to market, and also to cotton and hop growers, and the Committee think they do not exaggerate when they say it is in their opinion the perfection of machinery for that purpose The Committee therefore award to Mr Jack a premium of $5"

There are several of this new style of Presses now in use near Portland and a large number building in different parts of the State The cost of the Press with the right to use it, can be purchased at less than half the cost of any other press now in use

Highly Important to all Invalids & friends of Invalids.

THE AFFLICTED IN DANGER
SALUTARY CAUTION

READ! READ!!

THE well established and well earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS as a Sovereign antidote, and cure in cases of Fevers Head Ache Indigestion Dyspepsia Dysentery Colic Female Complaints &c &c has excited the cupidity and envy of the proprietors of other medicines and since their admirable qualities cannot be impugned has arrayed against them the antagonist efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive titles "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than an agreeable exterior to combat with disease We shall not attempt to analyze the composition of the Sugar Coated or pretended improved Indian Vegetable Pills which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so nor is it necessary It is however our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills and that whoever purchases them under this supposition is wofully deceived This caution is positively necessary since the title (nearly) the qualities set forth, the combination of ingredients, &c are all those which formed the distinctive and original character of the true medicine

Remember, buy none but "WRIGHT'S Indian Vegetable Pills," *which are protected by a patent* These have attained an almost incredible sale and circulation owing altogether to their own intrinsic merits The public will pass its own judgment upon any attempt to snatch the Laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe their continuance of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas, Inflammations, of the Brain throat, stomach, lungs, liver intestines kidneys and bladder pains in the stomach, back and side, consumption, dropsy of the head of the chest, of the abdomen and of the limbs, scrofular, scurvy and syphilis, cancer, gravel, loss of appetite, sick headache, rheumatism, both acute and chronic, spitting of blood, diarrhœa, dysentery and colics, syncope, apoplexy and paralysis, dyspepsia, hypochondriasis, epilepsy, hooping cough, Palpitation of the heart, ulcers and sores of every description, hysterics, weak nerves, and low spirits suppression, and other delicate Female Complaints

No other medicines ever discovered has grappled those horrid forms of disease with such general success They derive thus powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE The bowels of the earth have not been ransacked for poisonous minerals to infect the system under the pretence of eradicating disease The Field and the Forrest alone have been searched for materials for the healing art From these have been collected remedies attacking the various forms of disease and expelling it by the outlets provided by the author of our Being the Lungs, the Skin the Kidneys and the Bowels Hence Wright's Indian Vegetable Pills, based upon the curative mode suggested by nature, are Sudorific Diuretic, Expectorant and Purgative

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect The nearer we approach to nature, in our researches after truth both in science and art, the more complete will be our success in both Look at the uniform physical condition of the Indian Tribes of this continent, whether exposed to the frosts and storms of the North, or to the rain, heat, and pestilential miasma of Southern climate Houseless, unprotected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man who enjoys all the comforts of civilization with its attendant arts, is as much inferior to the savage in physical vigor as he is superior to him in intellectual acquisitions—How does this happen? Simply because bereft of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness turn from the false lights of man and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

Disease rarely assumes one form from another even in any one case hence the absurdity of attacking it by one uncompounded medicine But Wright's Indian Vegetable Pills combining a remedy for every form of disease attacks successfully any combination of malady This union of powers render these pills thoroughly cleansing in their nature and operations. They cannot fail of affording relief if taken according to directions accompanying them They may be truely resorted to in the most desperate cases of the most desperate disorders, for they have effected remarkable and marvellous cures They are applicable to a wide range of diseases and their use is not confined to any particular age or temperament They are now triumphantly established beyond the reach of cavil and the only danger that exists is on the part of the public, lest they should suffer from imitations spurious Pills, palmed off by the help of titles similar to that of the genuine Pills Therefore we once more caution the public against purchasing any but the

GENUINE
"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid in the homely but expressive phrase 'a new man' whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs producing that dry hacking cough so painful to the friends ear or Cutaneous, showing itself upon the skin in eruptions or blotches or whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills are* equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity

In a word this medicine commends itself strongly to the patronage of the public and its use bids fair to become, before long ALMOST UNIVERSAL

Copy of a letter received from Mrs Asenath M Phillips of Norwich Conn after she had been using it some [illegible] time about eight days Comment on such evidence is unnecessary Norwich Oct 8 1842

Messrs Sands Gentlemen It is with the greatest pleasure, and a heart overflowing with gratitude I sit down to address you, to inform you of my health, which is rapidly improving every day Those tormenting pains in my limbs which have followed me for nineteen years and six months, which were taking my life by inches I tortured and racked to that degree I could not sleep more than a person wrapped in embers or with a saw living creature biting the flesh Not one single night have I slept all night during the whole of that time and wonderful to tell on the 26th of October, I went to bed at 10 o'clock and slept sweet sleep till morning and have continued to ever since, which is five nights of best sleep which I ever enjoyed in my life The sores on my limbs are growing smaller, and new ones to the soles appears to be new flesh growing The water is going off by degrees from my head to my feet. It is about five days since it reached my feet, so as to leave what is on my skin Nothing ever before reached my case until I tried your Sarsaparilla If I continue to take it until the water is all removed from my feet and ankles I shall get well I want you to send me some more by the next boat by Mr Willcox Can I find words to tell how much I am indebted to you? No I cannot My physicians failed to help, and friends gave me up to die it seemed that the Lord put it into the heart of a [illegible] to find out a remedy and send it to me before [illegible] went out The scripture saith He that hath pity upon the poor lendeth unto the Lord and that which he hath given will pay him again

TRUE WISDOM.

A WISE general on the eve of battle makes a proper disposition of his forces beforehand and does not wait till the enemy has made an attack and thus, by forethought and due preparation reasonably expects a victory thus he who has a desire to attain a healthy and consequently happy old age does not indolently wait for the attack of the enemy, which is sickness, but is constantly on his guard against his insidious approaches, by paying proper attention to the state of his health Many would like occasionally to take medicine to assist nature in her operation, but take a medicine at sea without his compass, knowing not where to look they find try this and then that, and meet with nothing but disappointment to these, how welcome must be the important fact, that Parr's Life Pills are now proved to be all that are required to conquer disease and prolong life

Progress of Temperance.

For the Editors of the Whig & Courier

Knowing your devotion to Temperance [illegible] I take the liberty of addressing you this [illegible] for the purpose of giving you and the readers of your paper tidings of its advancement [illegible] one of its most zealous and faithful advocates in the County, and I may add, State

During the past season the excitement of the great political canvass not only overwhelmed the interest which the friends of temperance entertained for its success in this vicinity or elsewhere, but particularly in this place it seemed to have left it in a state beyond the hope of resuscitation But within a week past the good cause has taken a vigorous start, and its friends are once more animated with that zeal which is the sure harbinger of success Much of this has been owing to the indefatigable perseverance of our friend, Mr Joseph Norton, of your place, so well known in this County, for the most of ten years past, as an extensive retailer of the Scrittler, and now for his skill and industry as a mechanic of your city, and his love of temperance Mr Norton has, within a week past, given two lectures upon the subject in this place with great success Its friends have been awakened to its importance, new names have been added to the pledge, and the backsliding have been returned Mr Norton claims not to be an orator, yet the straight forward manner in which he enters upon his subject, the hearty and invigorating zeal the earnest spirit which characterizes all of his efforts, go directly to the hearts of his hearers He carries the subject home to the interests and bosoms of all

Thus, all who have heard him will allow, is no extravagant praise it is not so intended I understand that he intends to devote some months of the ensuing season to this good work, and will travel westward Allow me to say to the friends of temperance, and to those who are acquainted with him, that wherever good can be done in this cause, Mr Norton is one of the few that can do it, and they will do well to engage his services God speed him and all friends of this great reform, till the time shall come when temperance, peace and happiness shall crown their labors with success

Levant, March 17, 1845

To the Editor of the Whig & Courier

It has been stated that in all the Towns hear from in this quarter, Anti-License Town Officers have been elected this year, except the town of Hermon

I am informed that Glenburn has also elected officers in favor of licensing There may be many others although it is believed a large majority of Towns have chosen (and generally by decided vote) Temperance boards of officers—[illegible] at the true state of the public mind may be [illegible] known on the subject that is exciting so general and interest will the temperance men in the towns in this vicinity forward to the Secretary of either of the Temperance Societies in this City the precise state of the votes on this question, in their respective towns Bangor, Hampden, Oldtown, Lincoln Orono, Brewer, Exeter, Levant, Palmyra and St Albans have it is said chosen temperance men Let us hear from the other towns PHILO

Negro Speculators

A writer in the Columbia (Ga) Enquirer recommends to speculators in human flesh that Georgia has laws against their trade, promises to turn state prosecutor to see that those laws are enforced The Columbia Times responds to this intention by expressing the hope that not only Georgia but all the States of the [illegible] will the introduction of Slaves from Maryland and Virginia by trafic will be strictly prohibited The reasons assigned for this, however are not founded on any humane considerations as respects the Slaves but based entirely on the assumption that if Maryland and Virginia are permitted to pour their surplus Slave population upon the States farther South, very soon public opinion in the former will begin to assume the type of Negro philantropy which prevails farther North, and two powerful States will be changed from friends and co defenders of the institution into its opponents The diminution in the price of Slaves raised at the South, which it is supposed would follow the free introduction there of those raised at the North—in other words [illegible] of commercial competition [illegible] of the home product [illegible] combined with the fear that Maryland and Virginia may become Free States and thus be lost the Slave [illegible] is all that would seem to [illegible] [illegible]
